MEMORANDUM FOR THE RECORD

SUBJECT: IAC Instructions to the Board concerning Revisions in
SIE-5

The IAC, meeting on 30 October 1952, instructed the Board to re-convene the IAC representatives for the purpose of effecting the following revisions in the text of SIE-5:

- Scale*
"means"
- a. The statement of the problem is to be rephrased to read substantially as follows: "To examine the nature and ~~scope~~ of present and probable future Soviet air defenses through 1954."
 - b. Conclusions are to be revised to include more specific statements, pertinent qualifications, and cross-references to detailed discussion in the text and in the appendices.
 - c. A new general introductory paragraph is to be included which sets forth (1) what the estimate is; (2) what it is not; (3) any qualifications helpful to the ultimate consumer, i.e., the NSC, and (4) any information of interest to our readers regarding a projected study on this subject.
 - d. Charts or graphs which serve to highlight a level or capability relative to our own should be included.
